“Python Full Stack Developer with AI Integration Experience”

Executive Summary

Motivated and detail-oriented Computer Science student with strong skills in Python, Django, MySQL, Artificial Intelligence, and Full Stack Web Development. Experienced in developing a complete web-based College Management ERP system with AI integration, role-based authentication, dashboards, and cloud deployment. The role requires strong problem-solving, backend development, database management, and teamwork abilities, which align with my hands-on project development experience and technical certifications. Eager to contribute as a Python Full Stack Developer and continuously enhance practical software engineering skills.

Technical Skills:

Programming Languages

- Python
- C
- Java
- HTML
- JavaScript

Frameworks & Web Technologies

- Django
- Flask
- Bootstrap
- REST API Basics
- Web Applications
- Chart.js

Databases

- MySQL
- SQLite
- PostgreSQL
- DBMS Concepts

AI & Cloud Technologies

- Artificial Intelligence (AI)
- Generative AI
- AI Chatbot Integration
- IBM Cloud Basics

Tools & Software

- Git & GitHub
- Postman API
- Microsoft Office
- Windows
- Tally ERP
- Adobe Photoshop
- CorelDRAW

Soft Skills:

- Communication & Teamwork
- Problem Solving
- Time Management
- Adaptability
- Leadership & Coordination
- Quick Learning Ability
- Project Management
- English & Tamil Communication

Professional Experience:

Government Arts and Science College, Manapparai

2025 – 2026

Role: Project Lead / Full Stack Developer

Project: CampSpark – Web-based College Management ERP System

Responsibilities:

- Developed a complete web-based College Management ERP system using Django and Python
- Designed and implemented student, staff, attendance, fee, library, complaint, and event management modules
- Integrated AI chatbot functionality to improve user interaction and support
- Built secure role-based authentication for students, staff, and administrators
- Developed responsive dashboards using HTML, CSS, Bootstrap, and JavaScript
- Designed relational database structures using MySQL, SQLite, and PostgreSQL
- Created notification and smart reminder systems for academic activities
- Implemented charts and data visualization features using Chart.js
- Managed deployment and cloud hosting using Railway platform
- Performed debugging, testing, and system optimization for stable performance
- Created project documentation including DFDs, ER diagrams, system architecture, and testing reports

Impact:

- Successfully developed and completed a multi-module ERP system for academic management
- Integrated over 15+ functional modules within a centralized platform
- Improved automation of attendance, fee, and event management processes
- Enabled role-based secure access for multiple user categories
- Built a scalable project architecture suitable for future enhancements and deployment
- Gained hands-on experience in backend development, AI integration, database management, and cloud deployment

Certifications & Training

IBM SkillsBuild – Generative AI with IBM Cloud

2025

IBM SkillsBuild – Getting Started with Artificial Intelligence

2025

Fundamentals of Web Development – IBM SkillsBuild

2024 – 2025

Foundation of Coding with Python – Infosys Springboard

2024 – 2025

Employability Skills Program

2025 – 2026

English Language Communication Program

2023 – 2024

Education

Bachelor of Science (B.Sc) – Computer Science

Government Arts and Science College, Manapparai

2023 – Present

PGDCA (Post Graduate Diploma in Computer Applications)

CSS Institute, Manapparai

2024 – 2025

Grade: A

C Programming Course

CMTS Institute

2026

Awards & Accomplishments:

- **Best Outgoing Student Award** – Government Arts and Science College, Manapparai (2026)
- Participated in Tamil Nadu Innovation Initiatives (TANII) Hackathon – Project Based Learning Program
- Successfully completed IBM SkillsBuild certifications in **Artificial Intelligence and Generative AI**
- Developed “**CampSpark**” – a complete College Management ERP System with AI integration
- Achieved Grade A in PGDCA Program
- Completed multiple technical certifications related to Python, AI, and Web Development
- Built and deployed real-world Django-based web applications
- Gained practical experience in cloud deployment, database management, and API integration
